Secretary of the Navy Long Talks on Civil Service.

SYMPATHY FOR CONGRESSMEN.

Doesn't Believe the Great Body of the People Desire to Return to the Old System—Reasons For His Faith in the Law—Senate and House Proceedings. Other Washington News.

WASHINGTON, Dec. 10.—Secretary of the Navy Long in an interview yesterday expressed the hope that the present civil service system will not be impaired. He said he had entire sympathy with the congressmen who are brought directly in contact with applicants for official position, but believed that the president is right and should be sustained. He was of opinion that the great body of people have no desire to go back to the old system—certainly not if their attention is called to the merits of the case. He said:

"1. The government gets better service. The civil service examinations are much better than represented, but even at their worst, they result in furnishing most competent clerks who, instead of looking to political influence for their retention in office, know that that depends on their merit and good work. The power of removal which hangs over them all the time, and which should never be impaired, and which the heads of departments are constantly invoking in cases of inefficiency, keeps them up to the mark.

"2. The congressmen themselves, as well as the heads of departments, are relieved from what used to be an incessant drive upon them, taking half their time. Under the old system, where they pleased one, they made enemies of 10. More and more, as the new system becomes settled, will this relief increase.

"3. The applicant for office is put on a true democratic and American footing. The old system was absolutely undemocratic and un-American. If there is a democratic or American principle, it is that every man shall have a chance and win according to his merit.

The secretary added, "A strong appeal to smash the civil service is made to congress by those who are out, because they regard it as the one obstacle to their getting in. But if we smash and changes made, the number of the unprovided for would still be 10 or more to one, just as at present, and the disappointment would be so widespread that the dissatisfaction with members of congress for changing the law for the particular benefit of only a few, would be greater, he added, than it is now for letting it stand for the general benefit of all."

FIFTY-FIFTH CONGRESS.

Relief For Klondikers and Pension Appropriation Bill Considered.

WASHINGTON, Dec. 10.—The senate did a considerable amount of business yesterday although no very important measures were considered or passed and there was very little debate. An attempt was made by Senator McBride to secure an appropriation for the relief of the Klondike miners but the net result was a resolution calling on the secretary of war for all information he had on that subject. An hour was devoted to the consideration of private pension bills and 45 were passed. The resolution of the Pacific railroad committee asking information regarding the sale of the Kansas Pacific was passed. Some work was laid out for next week, Senator Carter securing the right-of-way Monday and Tuesday for his census bill and Senator Lodge had the immigration bill made the unfinished business during the week.

House.
The house entered upon the consideration of the pension appropriation bill. The debate promises to continue for

HIGHEST IN SIX YEARS

Wheat in the Chicago Market on the Bound.

THE SHORTS WERE ALARMED.

December Lead in the Upward Movement Reaching \$1.09 With January a Good Second—May Also Made an Advance—How It Affected the New York Market.

CHICAGO, Dec. 10.—Not since August, 1891, has any month's delivery of wheat sold as high as December did yesterday. It rose from \$1.01½ at the opening to \$1.09, but in most irregular fashion. It had many a sudden backward slide, but in the end it rested at \$1.07, or the not inconsiderable improvement of 6½ cents for the day. January was a good second, closing at 94½ cents, a gain of 3 cents. May was less demonstrative in its bullishness. Its advance was 1½ cents a bushel.

Wheat was very nervous at the start. Shorts were evidently alarmed by the announcement that the bull clique had made arrangements to ship by rail all the wheat delivered them on December contracts and had also made advantageous storage contracts in the east. The consequence was, there was a host of buying orders for December at the opening, mostly of moderate lots, it is true, but they had the same effect on the already strained market as if they were for millions. There was no wheat for sale. December's opening ranged all the way from \$1.01½ to \$1.04, and even at the top there was scarcely a bushel to be had. This precipitated a perfect scramble among the shorts, not in December alone, but in January and May also. Before any wheat came out \$1.05 was offered for December. Then came a lull which lasted for an hour. Brokers operating for the bull clique attempted to stem the tide, but probably from 200,000 to 250,000 bushels were taken before a reaction occurred.

December declined to \$1.03½, but soon rose to \$1.05. Then came the storm. Within five minutes and amid a whirl of excitement December was bid up to \$1.08. It reacted with a jerk to \$1.06½, then up again without a stop to \$1.09, the highest point bid for wheat in this market in six years. Probably as much wheat was sold on this advance as on the earlier one. After that the market was quieter. January shorts in the meantime had not been idle. That month opened strong at from 93 to 94 cents and it sold as high as 97 cents during the excitement, an advance of 5½ cents. It was figured that the influences controlling December also applied to January and the shorts got under cover as quickly as they could. May was also very strong though it did not have the same panicky appearance of the other options.

How It Affected New York.

NEW YORK, Dec. 10.—The sensational advance of December wheat in Chicago yesterday from \$1.00½ to \$1.09 was reflected locally by a net improvement of 1½ to 1½ cents a bushel. Speculation, while active at times, did not approach the excitement reported in the west, as traders here were pretty well evened up and too shrewd in the present unsettled state of the market's affairs to branch out into fresh deals. Accordingly only a scalping business was accomplished save for a little forcing early in the day. December sold from 98 to 98½ cents and closed 98½ cents, while May closed 94½ cents after sales at 93½ to 95 cents.

NOT OFTEN THE CASE.

Man Gets Out a Writ of Habeas Corpus For His Mother-in-Law.

EATON, O. Dec. 10.—Two years ago Mrs. Elizabeth Kepple left her home near Greenfield, Ind., after securing \$5,000 alimony from her husband, and her whereabouts were unknown until a few days ago. Last February she arrived here and bought a small farm west of town. Yesterday her son-in-law arrived here from Indianapolis and went to the farm, but could not get to see her. He returned and got a writ of habeas corpus, and the sheriff brought her into court. Upon examination she was dismissed. Quite an air of mystery surrounds the affair.

BROTHERHOOD OF PAINTERS.

Consolidation of Two Factions Effected. Strength of the Organization.
CLEVELAND, Dec. 10.—The Brotherhood of Painters and Decorators of America succeeded yesterday in uniting its warring factions. This was accomplished through the expulsion of James H. Sullivan and John T. Elliott, president and secretary, respectively, of what has been known as the Baltimore faction, and the resignation of M. P. Carrick and J. W. McKinney, president and secretary, respectively, of the Buffalo faction. Under the consolidation the order will have about 65 lodges with a membership of between 7,000 and 8,000.

Will Name Them After Indian Tribes.

WASHINGTON, Dec. 10.—Secretary Gage will hereafter give all revenue cutters the name of some Indian tribe instead of some senator or representative as heretofore. The cutter just launched at Cleveland has been named the Algonquin.

Vital Organs Exposed.

WILLIAMSPORT, O., Dec. 10.—Dr. Briner, the attending physician, has announced that George Morris will fully recover. By the accidental discharge of a shotgun on Thanksgiving day Morris had his breast torn open in such a manner as to expose the vital organs.

Rear Admiral Green.

BROOKLINE, Mass., 10.—Rear Admiral Joseph H. Green, U. S. N. (retired) died at his home here early last night from a complication of diseases.

FORGERIES AND DEFALCATIONS.

Evidences of Alexander Wilhelm's Crookedness Increasing.

SOUTH BEND, Ind., Dec. 10.—The amount of the defalcations and forgeries of Alexander Wilhelm, the missing attorney, continue to increase, and now approximate \$12,000. The last forged instrument to appear is a note for \$600. Five widows and their orphaned children are among Wilhelm's victims, one of the chief sufferers being his sister-in-law. He is now thought to be in Denver.

Indiana University Foundation Day.
BLOOMINGTON, Ind., Dec. 10.—The Indiana University faculty has begun making arrangements for the celebration of Foundation day, which is Jan. 20. Governor Mount has promised to be here and preside.

General Clay has sent a message to his girl wife at Valleyview, Ky., imploring her to make him a visit as soon as she is able.

The saloonkeepers of Princeton, Ind., are fighting among themselves. One of them filed an application for a license. Another saloonkeeper protested against its being granted, and the war began.

Thomas Bosworth of Portland, Ind., the attorney who sued Flora Evans for \$1,700 for securing a damage verdict from the Lake Erie and Western railroad, was awarded judgment for the amount.

A DEGENERATE SON.

His Father Is Endeavoring to Land Him in the Penitentiary.

SOMERSET, Ky., Dec. 10.—Thompson Ward, of near London, came here in search of his son Frank yesterday, whom he charges with stealing a horse from him a couple of days ago. Mr. Ward traced the young man to this place and, learning that he had inquired the way to Monticello, immediately started after him. The father says he will prosecute the son to the full extent of the law. His explanation of his hatred of his first born is that the boy has been a criminal since he was 16 years old. He is now 24. Three months ago, after a long absence, Frank returned home, but left the same night, inducing a brother several years younger to visit a Swiss settlement with him. He made the boy drunk on wine and then compelled him to help rob the man who sold them the wine. Frank made his escape, but his brother, who was too drunk to run, was captured and sent to the penitentiary. The father hopes to capture Frank and have him sent to prison. Then he will lay all the facts before the governor and ask a pardon for his young son. Mr. Ward is a highly respected farmer.

Justice and Martin Bound Over.

CATLETTSBURG, Ky., Dec. 10.—Judge Haley has held David Justice and Charles Martin to the grand jury for the murder of Colonel Lazarus Vinson, which occurred two years ago.

No woman has the right to be a helpless, sick, nervous, fretful burden to her husband. If she is it is due to her own ignorance or neglect. If she will take proper care of herself and look after the health of the delicate organs that are the most important parts of her physical make-up, she will soon be a healthy, amiable helpmate, instead of a burden to the partner of her joys and sorrows. No woman who suffers from weakness and disease of the distinctly womanly organism can be a good, helpful wife to an ambitious man. It is easy to keep these organs healthy and vigorous.

The most wonderful medicine for women is Dr. Pierce's Favorite Prescription. It acts directly on the organs that make her a woman. It cures all weakness and disease. It allays inflammation, soothes pain, and permits the tortured nerves to resume their natural condition. It stops all weakening drains and the woman who has hitherto been nervous, weak and fretful becomes robust, helpful and happy. Thousands of happy women, who were once pain-tortured and miserable, testify to its virtues. All good druggists sell it.

"I write you these few lines to let you know the good your 'Favorite Prescription' did my wife," writes Dennis H. Connelly, Esq., of Clear Water, Wright Co., Minn. "Previous to motherhood she was very sick. She could not do her own work until she took two bottles of 'Favorite Prescription.' She took her Doctor's medicine but it did her no good. Your medicine is the best my wife ever had."

Have you a good reliable medical book in the house? There ought to be one in every family in the world. Of all the medical books published there is not one so comprehensive and reliable as Dr. Pierce's Common Sense Medical Adviser. In all its 1,008 pages there is not one sentence that may not be readily understood. No physician in the world has been a greater benefactor than Dr. Pierce. The best he knows is in this book. It is illustrated with over 300 plates and drawings. It talks about hundreds of ailments and tells you how to cure them. You may have this book for the cost of mailing it. If you want the book in paper covers send 21 one-cent stamps, to cover the cost of mailing only. For cloth cover send 31 stamps. World's Dispensary Medical Association, Buffalo, N. Y.

HUNTING HOLDEMAN

Elkhart County's Ex-Treasurer Missing—His Shortage.

A YOUNG GIRL DISAPPEARS.

Illegal Fishing Property Seized—Indiana University Foundation Day—Evidence of Attorney Wilhelm's Crookedness Increasing—Enforcing the Compulsory Education Law—Brakeman Injured.

GOSHEN, Ind., Dec. 10.—Expert Earnest, employed by the county commissioners to examine the books of ex-Treasurer Holdeman, has asked that Mr. Holdeman be requested to appear and go over the books with him and explain, if possible, their condition. Mr. Holdeman left Goshen two weeks ago and his whereabouts are unknown. The American Surety company, which indemnifies his local bondsmen to the amount of \$30,000, has issued circular letters, with a halfpenny cut and minute description of Holdeman, which have been sent out to every city in the country. The amount of the shortage has not at this time been made public, but it is understood will reach \$20,000.

PECULIAR CASE.

Three Men Mad Over One Woman and a Fourth Died.

HARTFORD CITY, Ind., Dec. 10.—Abraham Townsend, a bachelor, 45 years old, has been taken to the insane asylum at Richmond. He had never shown any signs of insanity until four weeks ago, when he met an old sweetheart. He visited the woman at Marion several times, and after his last visit his mind began to wander. He imagined the woman was seeking to kill him. It is a peculiar feature of the affair that the woman in the case has had three husbands, two of whom went crazy, the third dying in a manner which, it is alleged, aroused much suspicion at the time.

ARMORPLATE FACTORY.

Anderson, Ind., Hears From Secretary of the Navy Long.

ANDERSON, Ind., Dec. 10.—The Commercial club has received notice from Secretary Long of the navy, that this city is looked upon as one of the favorable sites under consideration for the establishment of the proposed government armor plant, and it is suggested that the city immediately file its bid for securing the same. One hundred and thirty acres of land will be required, on which 10 large steel buildings will be erected.

MISSING GIRL.

Young Daughter of George Jacobs Disappears—Believed to Be Deceased.

SPEARVILLE, Ind., Dec. 10.—For four days men have been scouring the country in search of the pretty daughter of George Jacobs of this place. She disappeared mysteriously last Saturday afternoon, and although she has been seen several times her father has been unable to find her. It is feared she has become deranged. Her mother is prostrated with grief, while her father has been driving day and night without sleep in search of her.

Sued the Bondsmen.

CRAWFORDSVILLE, Ind., Dec. 10.—

Attorney General Ketcham has entered suit against the bondsmen of ex-Mayor Fred C. Bandel, who recently died in office. It is alleged that Mayor Bandel collected fines and costs in criminal cases, for which he never accounted to the state. It is to recover this money that the suit is brought. Mr. Bandel's estate having proved insolvent.

Illegal Fishing Property Seized.

COLUMBIA CITY, Ind., Dec. 10.—

The fish law has been violated outrageously in the northern parts of this county. J. S. One prominent young farmer has been arrested and a number of others will follow.

Diphtheria and Typhoid.

SAGASTA'S SENTIMENTS.

He Makes a Speech Regarding Autonomy That Surprised the Carlists.

MADRID, Dec. 10.—The Carlists organs throughout Spain are making capital out of a pronouncement delivered by Senor Sagasta against the autonomy scheme. The Carlists minority in the cortes having issued a protest in which it drew a clear distinction between political and administrative autonomy, Senor Sagasta unexpectedly echoed the sentiments of the protest in a speech declaring that the nation was "animated by the feeling first expressed by the Carlists minority."

He affirmed that the country had not poured its blood and treasure into Cuba as a vain sacrifice, but in order to retain the colonies as an integral portion of her dominion and that the government's action in granting political autonomy to the Cubans "was in opposition to the feeling of the country and to the solidarity of the nation."

The Carlists hail this, coupled with General Weyler's attitude, as a sign that even the Liberals regard the government of the regency as doomed and are already preparing to leave a sinking ship. The Carlists organs daily attack the regency and refer to the Duke of Madrid (Don Carlos) openly as El Rey. It may be noted that no steps are taken against these journals.

SECRETARY MISSING.

W. D. Toll Alleged to Be Short Many Thousands in His Accounts.

ST. LOUIS, Dec. 10.—One week ago W. D. Toll, secretary of the Belleville Investment Loan association left home saying he was going to Madison, Ill., to transact some business. Since then nothing has been heard of him. An investigation of his accounts resulted in the discovery of four irregular entries and the shortage will reach into the thousands. The directors say the exact sum is not yet known. Toll left a wife and two children, who are frantic over his disappearance. His wife maintains he has been murdered.

Dr. Miles' Heart Cure

Cures a Prominent Attorney.

Dr. Miles' Heart Cure, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

FRIDAY, DECEMBER 10, 1897.

The reciprocity features of the Dingley tariff law are everywhere popular with the American people. It was this that largely helped toward extending our trade with other countries while the McKinley law was in force.

The statement of Congressman Landis that the House should pass a currency reform measure regardless of what the senate may do is generally approved by the people. The members of the lower house should do their full duty even though the majority of the senators may not be so inclined. Let the House majority go forward and carry out the recommendations of the President.

Allen W. Clark is for peace among democrats, and its to his interest to be so. He is a candidate. He is ready to quit talking about the past, and has some harsh things to say about those of his brethren who are not. He even goes so far as to say that the discussions at the democratic conference this week were 'stale and unprofitable.' Clark has become a free silver leader in this state but he wants to be careful how he talks about such aspiring and critical men as Shively, Shauklin, Overmyer and a few others or his own ambitions will be endangered.

During the past few days President McKinley's message has been read and reread in all parts of the country. The comments by thoughtful and honest critics have been most favorable. They realize that the President has carefully studied the great questions before the people, and expressed himself on them in remarkable clear and concise English and in a manner that proves his breadth as a statesman. The representatives of the people will make no mistakes by sustaining the position of President McKinley.

Jackson Circuit Court Sustained.
2209. Jonas vs Hirschburg; Jackson C. C. Affirmed. Wiley, J.

1. In an action by a husband against the mother of his wife for alienating his wife's affections it is not necessary to show in the complaint the devices resorted to or the language used to induce plaintiff's wife to leave him. 2. The province of a complaint is to state and plead the facts or facts which constitute the cause of action. 3. It is not the province of a pleading to state the evidence or conclusions of law. 4. The averment of the amount of damages suffered may be made in the prayer of the complaint. 5. When a set of interrogatories were propounded by each side of the case and the jury returns answers thereto they constitute a single verdict. 6. In case a special verdict contains unnecessary matters, if, when all surplus, redundant and irrelevant interrogatories are eliminated from the verdict, there still remains sufficient facts upon which the judgment of the trial court may rest, it will not be disturbed on account of such surplusage. 7. A venire de novo will not be awarded unless the verdict is so defective and uncertain upon its face that no judgment can be rendered upon it. 8. When the questions to be determined depend upon the evidence, in order to prevent the question to the court the evidence must be in the record. 9. A person who causes a wife to leave her husband is liable to the latter in action for damages.

State Librarian W. E. Henry has a very interesting comparative study of Indiana, showing the growth of the state for eight years. It consists of two maps, one prepared in 1817 by John Melish, and one prepared in 1897. It may be a matter of interest to note that these maps are taken from a history of Indiana, by W. H. Smith, which is to appear shortly. Any teacher in the state may have a copy of these maps by writing to Mr. Henry at Indianapolis.

Tired people are tired because they have exhausted their strength. The only way for them to get strong is to eat proper food.

But eating is not all. Strength comes from food, after digestion. Digestion is made easy with Shakers Digestive Cordial.

People who get too tired, die. Life is strength. Food is the maker of strength. Food is not food until it is digested.

Tired, pale, thin, exhausted, sick suffers from indigestion, can be cured by the use of Shaker Digestive Cordial. It will revive their spent energies, refresh and invigorate them, create new courage, endurance and strength, all by helping their stomachs to digest their food.

One resolution adopted declares: That it is the duty of the Christian citizens of this nation to put forth earnest efforts to maintain the existing Christian features of our government, and to endeavor to secure such an amendment to our constitution as will give to our Christian laws, institutions and usages an undeniable legal basis in the fundamental law of the land and thus secure a firm basis for every necessary moral and Christian reform.

THE KITTEN AND THE BEAR.

How Foss Frightened Bruin Up a Tree and Kept Him There.

Chris Burns, the veteran first sergeant of Troop D, had a kitten which, during the summer camping of the troop at the Lower Geyser basin, made her home within the sergeant's tent. Here, curled up on a pair of army blankets, she defied the world in general and dogs in particular. When the latter approached, she would elevate every bristle on her brave little back, her eyes would glow like live coals, and her tail would swell up threateningly. If dogs approached too near, she would hiss and exhibit the usual signs of hostility until the intruders had vanished from her neighborhood.

One day, when the camp was bathed in sunshine and every soldier in camp felt lazy, an inquisitive black bear came down the mountain side and, whether because he was in search of adventure or because attracted by a savory smell from the cook's fire, began to walk about among the white tents of the cavalry command.

Suddenly the kitten caught sight of him. Dogs by the score she had seen, but this particular "dog" was the largest and the hairiest dog she had ever seen. But she did not hesitate. It was enough for her that an enemy had invaded her special domain. Hissing forth her spite, while her little body quivered with rage, she darted forth at the bear. The onslaught was sudden, and one glance was enough for bruin. With a snort of fear, bruin made for the nearest tree, a short distance away, and did not pause until he was safely perched among the upper branches. Meanwhile the kitten stalked proudly about on the ground beneath, keeping close guard over her huge captive, her back still bristling with righteous indignation, while her tail would now and then give a significant little wave, as if to say, "That's the way I settle impertinent bears."

The soldiers, who meanwhile had poured forth from their tents, could scarcely believe their eyes; but there was the bear in the tree and the kitten below, and there were those who had seen the affair from beginning to end.

And perhaps the strangest part of it all was that the bear would not stir from his safe position in the branches until the kitten had been persuaded to leave her huge enemy a clear means of retreat. Then he slid shamefacedly down from his perch and ambled hastily off toward the mountain.—Lieutenant Charles D. Rhodes, U. S. A., in St. Nicholas.

HOLDING THE FORT.

Effort to Run a Traveling Evangelist Out of Town Proves a Failure.

FLORENCE, Kan., Dec. 10.—At an indignation meeting Thursday, Traveling Evangelist L. C. Martin was warned to leave town, on the grounds that he had slandered city officials and other persons. Martin became defiant and held his usual revival meeting Thursday evening. A crowd of men gathered outside to await his exit, but Martin held an allnight prayermeeting, 20 or 30 of his adherents remaining with him. He held the fort again last night and tonight is feared.

How to Take Moonlight Photographs.

Moonlight effects in photographs have long been admired by the uninitiated and fully appreciated by both amateur and professional photographers for their beauty, and many plates, too, have been spoiled by snap shooters who have accepted moonlight as the real illuminator of these views and accordingly focused directly on this beautiful orb of night. Moonlights with the moon herself in evidence are really sun photographs—that is, pictures taken with a rapid exposure, the camera pointed toward the sun generally in the late afternoon or early morning and with clouds between the lens and the direct rays. Many charming so called night pictures are taken by making two exposures, a short one in the rapidly diminishing afternoon sunlight, to get an impression of buildings and other dark objects and another longer one after dark to print in the gas and electric lights that line the long street or mark out the roads and winding pathways of a city park.—James B. Carrington in Scribner's.

Some Plain Facts.

Grave errors, injustice, wrongs of greater or less degree, arise from lack of knowledge of the truth, and more frequently from deception.

The most infamous case on record of deception and injustice is the attempt to demonetize silver as a money of final redemption in the United States.

There is no learned judge, skilled lawyer, or court of justice that is capable of reconciling the effort with the constitutional laws that govern the issue of money in this country.

The people have been deceived, officials in power, chosen to administer justice under the laws, have ignored their sworn duty, and given aid to the scheme that has paralyzed industry, reduced property values one-half, and beggared millions.

There is no authority of law, either specific or by inference, by which gold alone is made the only money with which to discharge debts, either public or private. The effort to make it so is unconstitutional and a national calamity.

Plain and ample information, facts, and truth, concerning this almost successful scheme to corner the wealth of the people, is now being printed in the Cincinnati Enquirer, a newspaper which the combined power of money has failed to muzzle or buy.

The Weekly Enquirer is only 75c. a year. The address is Enquirer Company, Cincinnati, O.

RANDOM REMARKS.

A Seymour Ex-Editor Tells Some Stories of His Western Trip.

SEATOR, Ill., December 9.—Passing over the different sections of the country—since August 15th the writer has been in and over a considerable portion of five states—he who "has eyes to see and ears to hear" cannot fail to notice, to his satisfaction, the evidence of business improvement that present themselves at every turn, or to be encouraged by the expressions of confidence in the great country, its condition and prospects, that come to him on every breeze.

STILL "SIXTEEN TO ONE."

And, not only in business affairs in general, but in politics in particular, is the change in the condition that confronted us a twelve-month ago apparent and notable. Then, everybody was talking for or against "free silver." Now, sixteen men are saying nothing to one who is doing the talking—and, without exception, the one who talks is a politician. Is the "issue" dead as an Egyptian mummy? That we are going to discuss. Our duty is to narrate facts as we find them; inference and conclusions are the privilege of the intelligent readers of the REPUBLICAN—and we leave that to them.

WHEN TO LAUGH.

But business talk and political discussion isn't all that one hears while riding with open ears, "on the rail." An example: Seated in a comfortable coach on the incomparable "Big Four" route, not many days ago, the writer watched the progress of a game of "cinch" and gave heed to the observations of the "cinchers"—each a crack-jack in his way.

It takes four to play that game—as you know, we presume—and each represented a different locality in the Hoosier state. Said the first:

"I'll tell you what, Bedford, my town, the most up-to-date place on the Indiana Southern railway, is solid as a rock when you come to rock quarries!"

"Oh, yes; that's gritty enough," broke in the second. "But, when it comes to big factories, Columbus tans the most hides, and"

"Hang it!" ejaculated the third, did you ever Seymour? My city has twenty-one factories, brick streets—and of the Court House we are just as sure as we are certain that Jack Shiel—you all know him—likes a joke—at some other fellow's expense!"

All this while the fourth was silent. But, realizing that three pairs of inquiring eyes were trying to burn their way into his thoughts, he looked up with a hang-dog expression, eyed the others for a moment, and exclaimed: "Well, I'm from Brownstown. Now laugh, you fools!"

THE NEW AND OLD.

Through western Illinois, over Iowa, up toward the Minnesota border, the Central Railway—and you never saw a better road—whirls you along over a region great in natural resources but greater still in its development. "The result of inventions?" Yes, this is an era of great discoveries! But, there are some that are not new.

Seated around an air-tight stove in a village store, a few nights since, a number of "Hawkeyes" were discussing a "new" product—"noncombustible wood." New? How ignorant some people are! That's just the kind that has been "taken on subscription" at Seymour, Ind., for the past eighteen years by JOHN AULD FORSTHE.

Two Pointed Questions Answered.

What is the use of making making a better article than your competitor if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.

How to Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered you have a dyspeptic look; if your kidneys are affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good alternative and tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at W. F. Peter's drug store. 50 cents per bottle.

Eastern capitalists have started a large factory at Owensboro, Ky., whose building covers two squares. Their industry is a new one and the material used is cornstalks. One hundred men are employed and the capacity of works is 300,000 tons of stalks per year. The products are various, one of the principle being cellulose for lining battlements. The company has a contract for four tons a week of material to be used in the manufacture of artificial silk, and another with one of the leading celluloid firm for large quantities of material, which will render the manufacture of that compound much less expensive. The concern will prepare for the manufacture of paper from stalks, experiments having demonstrated that it can be procured much cheaper than from wood.

MRS. LUETGERT ALIVE.

Editor John H. Schofield of St. Louis Says She Is In Boston.

BOSTON, Dec. 10.—The Globe today says: "Mrs. Luetgert, the supposed victim of the sausage manufacturer murder, so-called, in Chicago, is alive and well."

"Mrs. Luetgert was seen in this city during the month of July, acknowledged her identity, besides giving more or less explanation relative to the reasons which caused her to leave her husband, who is again to be tried for his life."

Such was the startling declaration made by Editor John H. Schofield of St. Louis to a Globe man.

Mr. Schofield supplemented his statement further with the positive assurance that Mrs. Luetgert was at the house, 7 Bullfinch place, for a period of three or four days during the middle of July last. He said he based his assurance upon the fact that Mrs. Luetgert, while in Boston, acknowledged her full identity, with the assertion that she left her husband, the Chicago sausage maker, because of his actions with other women, as well as for reasons which she thought would help him in his financial embarrassment in business. He further asserted that he believed that Mrs. Luetgert was still in Boston and that she would yet be found.

Luetgert Jury.

CHICAGO, Dec. 10.—Four new jurors were secured in the Luetgert case yesterday. Juror Frank Hoffman was challenged by the defense and dismissed. He had said before being summoned to court that Luetgert was guilty and should be hanged. He tried to tell this when he was accepted, but the lawyers would not give him a chance to talk. The jury now lacks but one man.

GHASTLY FIND.

Human Foot Discovered on the Trucks of a Chicago Sleeper.

CHICAGO, Dec. 10.—Evidence of a startling nature which indicates that a murder has been committed somewhere between Chicago and Denver on the Chicago and Alton railroad was found last evening on the top of the front trucks of the Pullman sleeping car, after its arrival in Chicago. It was a human foot, apparently that of a man and a long slender spike penetrated the large toe. The foot, which had been torn off above the ankle, was bare and mutilated. Ligaments which had been torn from the upper portion of the limb and remained attached to the foot in dismemberment, were twisted around the bloodstained trucks of the sleeper. The police believe that a man had been tied to the railroad track, his feet spiked to the ties and that he had been left to meet certain death under the train.

INHUMAN FIEND.

Fatally Wounds One Man and Sets Fire to a Boy's Clothing.

PHILADELPHIA, Dec. 10.—Antonio Tucci, an Italian, shot and probably fatally wounded G. Tompore because of the rejection of his affections by Tompore's 19-year-old daughter Theresa. He followed this up by setting fire to the clothing of Tompore's little son Michael, and when an attempt was made to arrest him he successfully held a squad of policemen and firemen at bay until he had twice fired his revolver at them and slightly wounded Policeman Simpson and a citizen named Saccharini. Finally driven into a corner he set fire to his room and, until securely handcuffed, defended himself with a large knife.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder trouble. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, but sent free by mail. Mention the REPUBLICAN and send your address to Kilmer & Co., Binghamton, N. Y. T. proprietors of this paper guarantee the genuineness of this offer.

Secretary of the Navy Long Talks on Civil Service.

SYMPATHY FOR CONGRESSMEN.

Don't Believe the Great Body of the People Desire to Return to the Old System—Reasons For His Faith in the Law—Senate and House Proceedings. Other Washington News.

WASHINGTON, Dec. 10.—Secretary of the Navy Long in an interview yesterday expressed the hope that the present civil service system will not be impaired. He said he had entire sympathy with the congressmen who are brought directly in contact with applicants for official position, but believed that the president is right and should be sustained. He was of opinion that the great body of people have no desire to go back to the old system—certainly not if their attention is called to the merits of the case. He said:

"1. The government gets better service. The civil service examinations are much better than represented, but even at their worst, they result in furnishing most competent clerks who, instead of looking to political influence for their retention in office, know that that depends on their merit and good work. The power of removal which hangs over them all the time, and which should never be impaired, and which the heads of departments are constantly invoking in cases of inefficiency, keeps them up to the mark.

"2. The congressmen themselves, as well as the heads of departments, are relieved from what used to be an incessant drive upon them, taking half their time. Under the old system, where they pleased one, they made enemies of 10. More and more, as the new system becomes settled, will this relief increase.

"3. The applicant for office is put on a true democratic and American footing. The old system was absolutely undemocratic and un-American. If there is a democratic or American principle, it is that every man shall have a chance and win according to his merit. The secretary added, "A strong appeal to smash the civil service is made to congress by those who are out, because they regard it as the one obstacle to their getting in. But if we smash and change made, the number of the unprovided for would still be 10 or more to one, just as at present, and the disappointment would be so widespread that the dissatisfaction with members of congress for changing the law for the particular benefit of a few, would be greater, he added, than it is now for letting it stand for the general benefit of all."

FIFTY-FIFTH CONGRESS.
Relief For Klondikers and Pension Appropriation Bill Considered.

WASHINGTON, Dec. 10.—The senate did a considerable amount of business yesterday although no very important measures were considered or passed and there was very little debate. An attempt was made by Senator McBride to secure an appropriation for the relief of the Klondiker miners but the net result was a resolution calling on the secretary of war for all information he had on that subject. An hour was devoted to the consideration of private pension bills and 45 were passed. The resolution of the Pacific railroad committee asking information regarding the sale of the Kansas Pacific was passed. Some work was laid out for next week, Senator Carter securing the right-of-way Monday and Tuesday for his census bill and Senator Lodge had the immigration bill made the unfinished business during the week.

The house entered upon the consideration of the pension appropriation bill. The debate promises to continue for

HIGHEST IN SIX YEARS

Wheat in the Chicago Market on the Bound.

THE SHORTS WERE ALARMED.

December Lead in the Upward Movement Reaching \$1.00 With January a Good Second—May Also Made an Advance—How It Affected the New York Market.

CHICAGO, Dec. 10.—Not since August, 1891, has any month's delivery of wheat sold as high as December did yesterday. It rose from \$1.01½ at the opening to \$1.09, but in most irregular fashion. It had many a sudden backward slide, but in the end it rested at \$1.07, or the not inconsiderable improvement of 6½ cents for the day. January was a good second, closing at 94½ cents, a gain of 3 cents. May was less demonstrative in its bullishness. Its advance was 1½ cents a bushel.

Wheat was very nervous at the start. Shorts were evidently alarmed by the announcement that the bull clique had made arrangements to ship by rail all the wheat delivered them on December contracts and had also made advantageous storage contracts in the east. The consequence was, there was a host of buying orders for December at the opening, mostly of moderate lots, it is true, but they had the same effect on the already strained market as if they were for millions. There was no wheat for sale. December's opening ranged all the way from \$1.01½ to \$1.04, and even at the top there was scarcely a bushel to be had. This precipitated a perfect scramble among the shorts, not in December alone, but in January and May also. Before any wheat came out \$1.05 was offered for December. Then came a lull which lasted for an hour. Brokers operating for the bull clique attempted to stem the tide, but probably from 300,000 to 250,000 bushels were taken before a reaction occurred.

December declined to \$1.03½, but soon rose to \$1.05. Then came the storm. Within five minutes and amid a whirl of excitement December was bid up to \$1.08. It reacted with a jerk to \$1.06½, then again without a stop to \$1.09, the highest point bid for wheat in this market in six years. Probably as much wheat was sold on this advance as on the earlier one. After that the market was quieter. January shorts in the meantime had not been idle. That month opened strong at from 93 to 94 cents and it sold as high as 97 cents during the excitement, an advance of 5½ cents. It was figured that the influence controlling December also applied to January and the shorts got under cover as quickly as they could. May was also very strong though it did not have the same panicky appearance of the other options.

How It Affected New York.
NEW YORK, Dec. 10.—The sensational advance of December wheat in Chicago yesterday from \$1.01½ to \$1.09 was reflected locally by a net improvement of 1½ to 1¾ cents a bushel. Speculation, while active at times, did not approach the excitement reported in the west, as traders here were pretty well evened up and too shrewd in the present unsettled state of the market's affairs to branch out into fresh deals. Accordingly only a scalping business was accomplished save for a little forcing early in the day. December closed from 98 to 99½ cents and closed 98½ cents, while May closed 94½ cents after sales at 93½ to 95 cents.

NOT OFFEN THE CASE.

Man Gets Out a Writ of Habeas Corpus For His Mother-in-Law.

EATON, O., Dec. 10.—Two years ago Mrs. Elizabeth Kepple left her home near Greenfield, Ind., after securing \$5,000 alimony from her husband, and her whereabouts were unknown until a few days ago. Last February she arrived here and bought a small farm west of town. Yesterday her son-in-law arrived here from Indianapolis and went to the farm, but could not get to see her. He returned and got a writ of habeas corpus, and the sheriff brought her into court. Upon examination she was dismissed. Quite an air of mystery surrounds the affair.

BROTHERHOOD OF PAINTERS.

Consolidation of Two Factions Elected. Strength of the Organization. CLEVELAND, Dec. 10.—The Brotherhood of Painters and Decorators of America succeeded yesterday in uniting its warring factions. This was accomplished through the expulsion of James H. Sullivan and John T. Elliott, president and secretary, respectively, of what has been known as the Baltimore faction, and the resignation of M. P. Carrick and J. W. McKinney, president and secretary, respectively, of the Buffalo faction. Under the consolidation the order will have about 65 lodges with a membership of between 7,000 and 8,000.

Will Name Them After Indian Tribes.

WASHINGTON, Dec. 10.—Secretary Gage will hereafter give all revenue cutters the name of some Indian tribe instead of some senator or representative as heretofore. The cutter just launched at Cleveland has been named the Algonquin.

SOUTH BEND, Ind., Dec. 10.—The amount of the defealations and forgeries of Alexander Wilhelm, the missing attorney, continue to increase, and now approximate \$12,000. The last forged instrument to appear is a note for \$600. Five widows and their orphaned children are among Wilhelm's victims, one of the chief sufferers being his sister-in-law. He is now thought to be in Denver.

A DEGENERATE SON.

His Father Is Endeavoring to Land Him in the Federal Penitentiary.

SOMERSET, Ky., Dec. 10.—Thompson Ward, of near London, came here in search of his son Frank yesterday, whom he charges with stealing a horse from him a couple of days ago. Mr. Ward traced the young man to this place and, learning that he had inquired the way to Monticello, immediately started after him. The father says he will prosecute the son to the full extent of the law. His explanation of his hatred of his first born is that the boy has been a criminal since he was 16 years old. He is now 24. Three months ago, after a long absence, Frank returned home, but left the same night, inducing a brother several years younger to visit a Swiss settlement with him. He made the boy drunk on wine and then compelled him to help rob the man who sold them the wine. Frank made his escape, but his brother, who was too drunk to run, was captured and sent to the penitentiary. The father hopes to capture Frank and have him sent to prison. Then he will lay all the facts before the governor and ask a pardon for his young son. Mr. Ward is a highly respected farmer.

Justice and Martin Bound Over.

CLEVELAND, Ind., Dec. 10.—Judge Haley has held David Justice and Charles Martin to the grand jury for the murder of Colonel Lazarus Vinson, which occurred two years ago.

No woman has the right to be a helpless, sick, nervous, fretful burden to her husband. If she is, it is due to her own ignorance or neglect. If she will take proper care of herself and look after the health of

the delicate organs that are the most important parts of her physical make-up, she will soon be a healthy, amiable helpmate, instead of a burden to the partner of her joys and sorrows. No woman who suffers from weakness and disease of the distinctly womanly organism can be a good, helpful wife to an ambitious man. It is easy to keep these organs healthy and vigorous.

The most wonderful medicine for women is Dr. Pierce's Favorite Prescription. It acts directly on the organs that make her a woman. It cures all weakness and disease. It allays inflammation, soothes pain, and permits the tortured nerves to resume their natural condition. It stops all weakening drains and the woman who has hitherto been nervous, weak and fretful becomes robust, helpful and happy. Thousands of happy women, who were once pain-tortured and miserable, testify to its virtues. All good druggists sell it.

"I write you these few lines to let you know the good your 'Favorite Prescription' did my wife," writes Dennis H. Connelly, Esq., of Clear Water, Wis. "My wife was very sick. She could not do her own work until she took two bottles of 'Favorite Prescription.' She took her medicine but it did her no good. Your medicine is the best my wife ever had."

Have you a good reliable medical book in the house? There ought to be one in every family in the world. Of all the medical books published there is not one so comprehensive and reliable as Dr. Pierce's Common Sense Medical Adviser. In all its 1,000 pages there is not one sentence that may not be readily understood. No physician in the world has been a greater benefactor than has Dr. Pierce. The best he knows is in this book. It is illustrated with over 300 plates and drawings. It talks about hundreds of ailments and tells you how to cure them. You may have this book for the cost of mailing it. If you want the book in paper covers send at one-cent stamps to cover the cost of mailing only. For cloth cover send 31 stamps. World's Dispensary Medical Association, Buffalo, N. Y.

HUNTING HOLDEMAN

Elkhart County's Ex-Treasurer Missing—His Shortage.

A YOUNG GIRL DISAPPEARS.

Illegal Fishing Property Seized—Indiana University Foundation Day—Evidence of Attorney Wilhelm's Crookedness Increasing—Enforcing the Compulsory Education Law—Brakeman Injured.

GOSHEN, Ind., Dec. 10.—Expert Earnest, employed by the county commissioners to examine the books of ex-Treasurer Holdeman, has asked that Mr. Holdeman be requested to appear and go over the books with him and explain, if possible, their condition. Mr. Holdeman left Goshen two weeks ago and his whereabouts are unknown. The American Surety company, which indemnifies his local bondsmen to the amount of \$30,000, has issued circular letters, with a halfpenny cut and minute description of Holdeman, which have been sent out to every city in the country. The amount of the shortage has not at this time been made public, but it is understood will reach \$20,000.

PECULIAR CASE.

Three Men Mad Over One Woman and a Fourth Died.

HARTFORD, Conn., Dec. 10.—Abraham Townsend, a bachelor, 45 years old, has been taken to the insane asylum at Richmond. He had never shown any signs of insanity until four weeks ago, when he met an old sweetheart. He visited the woman at Marion several times, and after his last visit his mind began to wander. He imagined the woman was seeking to kill him. It is a peculiar feature of the affair that the woman in the case has had three husbands, two of whom went crazy, the third dying in a manner which, it is alleged, aroused much suspicion at the time.

Mr. Bandel's estate having proved insolvent.

SAGASTA'S SENTIMENTS.

He Makes a Speech Regarding Autonomy That Surprised the Carlists.

MADRID, Dec. 10.—The Carlists organs throughout Spain are making capital out of a pronunciamento delivered by Senor Sagasta against the autonomy scheme. The Carlism minority in the cortes having issued a protest in which it drew a clear distinction between political and administrative autonomy, Senor Sagasta unexpectedly echoed the sentiments of the protest in a speech declaring that the nation was "animated by the feeling first expressed by the Carlism minority."

He affirmed that the country had not poured its blood and treasure into Cuba as a vain sacrifice, but in order to retain the colonies as an integral portion of her dominion and that the government's action in granting political autonomy to the Cubans "was in opposition to the feeling of the country and to the solidarity of the nation."

The Carlism hall this, coupled with General Weyler's attitude, as a sign that even the Liberals regard the government of the regency as doomed and are already preparing to leave a sinking ship. The Carlism organs daily attack the regency and refer to the Duke of Madrid (Don Carlos) openly as El Rey. It may be noted that no steps are taken against these journals.

SECRETARY MISSING.

W. D. Toll Alleged to Be Short Many Thousands in His Accounts.

ST. LOUIS, Dec. 10.—One week ago W. D. Toll, secretary of the Belleville Investment Loan association left home saying he was going to Madison, Ill., to transact some business. Since then nothing has been heard of him. An investigation of his accounts resulted in the discovery of four irregular entries and the shortage will reach into the thousands. The directors say the exact sum is not yet known. Toll left a wife and two children, who are frantic over his disappearance. His wife maintains he has been murdered.

Dr. Miles' Heart Cure

Cures a Prominent Attorney.

ALFRED C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee. First bottle free. Book on diseases of the heart and nervous system free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

FRIDAY, DECEMBER 10, 1897.

The reciprocity features of the Dingley tariff law are everywhere popular with the American people. It was this that largely helped toward extending our trade with other countries while the McKinley law was in force.

The statement of Congressman Landis that the House should pass a currency reform measure regardless of what the senate may do is generally approved by the people. The members of the lower house should do their full duty even though the majority of the senators may not be so inclined. Let the House majority go forward and carry out the recommendations of the President.

ALLEN W. CLARK is for peace among democrats, and its to his interest to be so. He is a candidate. He is ready to quit talking about the past, and has some harsh things to say about those of his brethren who are not. He even goes so far as to say that the discussions at the democratic conference this week were "stale and unprofitable." Clark has become a free silver leader in this state but he wants to be careful how he talks about such aspiring and critical men as Shively, Shanklin, Overmyer and a few others or his own ambitions will be endangered.

During the past few days President McKinley's message has been read and reread in all parts of the country. The comments by thoughtful and honest critics have been most favorable. They realize that the President has carefully studied the great questions before the people, and expressed himself on them in remarkable clear and concise English and in a manner that proves his breadth as a statesman. The representative of the people will make no mistakes by sustaining the position of President McKinley.

Jackson Circuit Court Sustained.
2209. Jonas vs Hirschburg; Jackson C. C. Affirmed. Wiley, J.

1. In an action by a husband against the mother of his wife for alienating his wife's affections it is not necessary to show in the complaint the devices resorted to or the language used to induce plaintiff's wife to leave him. 2. The province of a complaint is to state and plead the facts or facts which constitute the cause of action. 3. It is not the province of a pleading to state the evidence or conclusions of law. 4. The averment of the amount of damages suffered may be made in the prayer of the complaint. 5. When a set of interrogatories were propounded by each side of the case and the jury returns answers thereto they constitute a single verdict. 6. In case a special verdict contains unnecessary matters, if, when all surplus, redundant and irrelevant interrogatories are eliminated from the verdict, there still remains sufficient facts upon which the judgment of the trial court may rest, it will not be disturbed on account of such surplusage. 7. A venire de novo will not be awarded unless the verdict is so defective and uncertain upon its face that no judgment can be rendered upon it. 8. When the questions to be determined depend upon the evidence, in order to present the question to the court the evidence must be in the record. 9. A person who causes a wife to leave her husband is liable to the latter in action for damages.

National Conference Comes to a Close at Philadelphia.

PHILADELPHIA, Dec. 10.—The national conference on the Christian principles of civil government came to an end last night. One resolution adopted declares: That it is the duty of the Christian citizens of this nation to put forth earnest efforts to maintain the existing Christian features of our government, and to endeavor to secure such an amendment to our constitution as will give to our Christian laws, institutions and usages an undeniable legal basis in the fundamental law of the land and thus secure a firm basis for every necessary moral and Christian reform.

THE KITTEN AND THE BEAR.

How Puss Frightened Bruin Up a Tree and Kept Him There.

Chris Burns, the veteran first sergeant of Troop D, had a kitten which, during the summer camping of the troop at the Lower Geyser basin, made her home within the sergeant's tent. Here, curled up on a pair of army blankets, she defied the world in general and dogs in particular. When the latter approached, she would elevate every bristle on her brave little back, her eyes would glow like live coals, and her tail would swell up threateningly. If dogs approached too near, she would hiss and exhibit the usual signs of hostility until the intruders had vanished from her neighborhood.

One day, when the camp was bathed in sunshine and every soldier in camp felt lazy, an inquisitive black bear came down the mountain side and, whether because he was in search of adventure or because attracted by a savory smell from the cook's fire, began to walk about among the white tents of the cavalry command.

Suddenly the kitten caught sight of him. Dogs by the score she had seen, but this particular "dog" was the largest and the hairiest she had ever seen. But she did not hesitate. It was enough for her that an enemy had invaded her special domain. Hissing forth her spite, while her little body quivered with rage, she darted forth at the bear. The onslaught was sudden, and one glance was enough for bruin. With a snort of fear, bruin made for the nearest tree, a short distance away, and did not pause until he was safely perched among the upper branches. Meanwhile the kitten stalked proudly about on the ground beneath, keeping close guard over her huge captive, her back still curved into a bow and her hair still bristling with righteous indignation, while her tail would now and then give a significant little wave, as if to say, "That's the way I settle impertinent bears."

The soldiers, who meanwhile had poured forth from their tents, could scarcely believe their eyes; but there was the bear in the tree and the kitten below, and there were those who had seen the affair from beginning to end.

And perhaps the strangest part of it all was that the bear would not stir from his safe position in the branches until the kitten had been persuaded to leave her huge enemy a clear means of retreat. Then he slid shamefacedly down from his perch and ambled hastily off toward the mountain.—Lieutenant Charles D. Rhodes, U. S. A., in St. Nicholas.

HOLDING THE FORT.

Effort to Run a Traveling Evangelist Out of Town Proves a Failure.

FLORENCE, Kan., Dec. 10.—At an indignation meeting Thursday, Traveling Evangelist L. C. Martin was warned to leave town, on the grounds that he had slandered city officials and other persons. Martin became defiant and held his usual revival meeting Thursday evening. A crowd of men gathered outside to await his exit, but Martin held an allnight prayermeeting, 30 or 30 of his adherents remaining with him. He held the fort again last night and trouble is feared.

How to Take Moonlight Photographs.

Moonlight effects in photographs have long been admired by the uninitiated and fully appreciated by both amateur and professional photographers for their beauty, and many plates, too, have been spoiled by snapshooters who have accepted moonlight as the real illuminator of these views and accordingly focused directly on this beautiful orb of night. Moonlights are really sun photographs—that is, pictures taken with a rapid exposure, the camera pointed toward the sun generally in the late afternoon or early morning and with clouds between the lens and the direct rays.

Many charming so called night pictures are taken by making two exposures, a short one in the rapidly diminishing afternoon sunlight, to get an impression of buildings and other dark objects and another longer one after dark to print in the gas and electric lights that line the long street or mark out the roads and winding pathways of a city park.—James B. Carrington in Scribner's.

For any one to assert that petroleum oil possesses no therapeutic power is simply to make an assertion of ignorance, for petroleum, or rock oil, as it is sometimes called, is, it is well known to those who have paid any attention to the subject, used with the most beneficial results in all chronic bronchial and pulmonary disorders.

Some Plain Facts.

Grave errors, injustice, wrongs of greater or less degree, arise from lack of knowledge of the truth, and more frequently from deception.

The most infamous case on record of deception and injustice is the attempt to demonetize silver as a money of final redemption in the United States.

There is no learned judge, skilled lawyer, or court of justice that is capable of reconciling the effort with the constitutional laws that govern the issue of money in this country.

The people have been deceived, officials in power, chosen to administer justice under the laws, have ignored their sworn duty, and given aid to the scheme that has paralyzed industry, reduced property values one-half, and beggared millions.

There is no authority of law, either specific or by inference, by which gold alone is made the only money with which to discharge debts, either public or private. The effort to make it so is unconstitutional and a national calamity.

Plain and ample information, facts, and truth, concerning this almost successful scheme to corner the wealth of the people, is now being printed in the Cincinnati Enquirer, a newspaper which the combined power of money has failed to muzzle or buy. The Weekly Enquirer is only 75c. a year. The address is Enquirer Company, Cincinnati, O.

RANDOM REMARKS.

A Seymour Ex-Editor Tells Some Stories of His Western Trip.

SEASON, Ill., December 9.—Passing over the different sections of the country—since August 15th the writer has been in and over a considerable portion of five states—he who "has eyes to see and ears to hear" cannot fail to notice, to his satisfaction, the evidence of business improvement that presents themselves at every turn, or to be encouraged by the expressions of confidence in the great country, its condition and prospects, that come to him on every breeze.

STILL "SIXTEEN TO ONE."

And, not only in business affairs in general, but in politics in particular, is the change in the condition that confronted us a twelve-month ago apparent and notable. Then, everybody was talking for or against "free silver." Now, sixteen men are saying nothing to one who is doing the talking—and, without exception, the one who talks is a politician! Is the "issue" dead as an Egyptian mummy? That we are not going to discuss. Our duty is to narrate facts as we find them; inference and conclusions are the privilege of the intelligent readers of the REPUBLICAN—and we leave that to them.

WHEN TO LAUGH.

But business talk and political discussion isn't all that one hears while riding with open ears, "on the rail." An example: Seated in a comfortable coach on the incomparable "Big Four" route, not many days ago, the writer watched the progress of a game of "cinch" and gave heed to the observations of the "cinchers"—each a crack-jack in his way.

It takes four to play that game—as you know, we presume—and each represented a different locality in the Hoosier state. Said the first:

"I'll tell you what, Bedford, my town, the most up-to-date place on the Indiana Southern railway, is solid as a rock when you come to rock quarries!"

"Oh, yes; that's gritty enough," broke in the second. "But, when it comes to big factories, Columbus tans the most hides, and"

"Hang it!" ejaculated the third, "did you ever Seymour? My city has twenty-one factories, brick streets—and of the Court House we are just as sure as we are certain that Jack Shiel—you all know him—likes a joke—at some other fellow's expense!"

All this while the fourth was silent. But, realizing that three pairs of inquiring eyes were trying to burn their way into his thoughts, he looked up with a hang-dog expression, eyed the others for a moment, and exclaimed:

"Well, I'm from Brownstown. Now laugh, you fools!"

THE NEW AND OLD.

Through western Illinois, over Iowa, up toward the Minnesota border, the Central Railway—and you never saw a better road—whirls you along over a region great in natural resources but greater still in its development. "The result of inventions?" Yes, this is an era of great discoveries! But, there are some that are not new.

Seated around an air-tight stove in a village store, a few nights since, a number of "Hawkeyes" were discussing a "new" product—"noncombustible wood." New? How ignorant some people are! That's just the kind that has been "taken on subscription" at Seymour, Ind., for the past eighteen years by JOHN AULD FORTYTHREE.

Two Pointed Questions Answered.

What is the use of making making a better article than your competitor if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. How to Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered you have a dyspeptic look; if your kidneys be affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good alterative and tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at W. F. Peter's drug store. 50 cents per bottle.

Eastern capitalists have started a large factory at Owensboro, Ky., whose building covers two squares. Their industry is a new one and the material used is cornstalks. One hundred men are employed and the capacity of works is 300,000 tons of stalks per year. The products are various, one of the principle being cellulose for lining battle-ships. The company has a contract for four tons a week of material to be used in the manufacture of artificial silk, and another with one of the leading celluloid firm for large quantities of material, which will render the manufacture of that compound much less expensive. The concern will prepare for the manufacture of paper from stalks, experiments having demonstrated that it can be procured much cheaper than from wood.

Catarrh Cannot be Cured With LOCAL APPLICATIONS, as they cannot reach the seat of disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

MRS. LUETGERT ALIVE.

Editor John H. Schofield of St. Louis Says She Is In Boston.

Boston, Dec. 10.—The Globe today says: "Mrs. Luetgert, the supposed victim of the sausage manufacturer murder, so-called, in Chicago, is alive and well."

"Mrs. Luetgert was seen in this city during the month of July, acknowledged her identity, besides giving more or less explanation relative to the reasons which caused her to leave her husband, who is again to be tried for his life."

Such was the startling declaration made by Editor John H. Schofield of St. Louis to a Globe man.

Mr. Schofield supplemented his statement further with the positive assurance that Mrs. Luetgert was at the house, 7 Bullfinch place, for a period of three or four days during the middle of July last. He said he based his assurance upon the fact that Mrs. Luetgert, while in Boston, acknowledged her full identity, with the assertion that she left her husband, the Chicago sausage maker, because of his actions with other women, as well as for reasons which she thought would help him in his financial embarrassment in business. He further asserted that he believed that Mrs. Luetgert was still in Boston and that she would yet be found.

Luetgert Jury.

CHICAGO, Dec. 10.—Four new jurors were secured in the Luetgert case yesterday. Juror Frank Hoffman was challenged by the defense and dismissed. He had said before being summoned to court that Luetgert was guilty and should be hanged. He tried to tell this when he was accepted, but the lawyers would not give him a chance to talk. The jury now lacks but one man.

GHASTLY FIND.

Human Foot Discovered on the Trucks of a Chicago Sleeper.

CHICAGO, Dec. 10.—Evidence of a startling nature which indicates that a murder has been committed somewhere between Chicago and Denver on the Chicago and Alton railroad was found last evening on the top of the front trucks of the Pullman sleeping car, after its arrival in Chicago. It was a human foot, apparently that of a man and a long slender spike penetrated the large toe. The foot, which had been torn off above the ankle, was bare and mutilated. Ligaments which had been torn from the upper portion of the limb and remained attached to the foot in dismemberment, were twisted around the bloodstained trucks of the sleeper. The police believe that a man had been tied to the railroad track, his feet spiked to the ties and that he had been left to meet certain death under the train.

INHUMAN FIEND.

Fatally Wounds One Man and Sets Fire to a Boy's Clothing.

PHILADELPHIA, Dec. 10.—Antonio Tucci, an Italian, shot and probably fatally wounded G. Tompono because of the rejection of his affections by Tompono's 19-year-old daughter Theresa. He followed this up by setting fire to the clothing of Tompono's little son Michael, and when an attempt was made to arrest him he successfully held a squad of policemen and firemen at bay until he had twice fired his revolver at them and slightly wounded Policeman Simpson, and a citizen named Sacharri. Finally driven into a corner he set fire to his room and, until severely handcuffed, defended himself with a large knife.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases. CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours, sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, but sent free by mail. Mention the REPUBLICAN and send your address to Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the effectiveness of this offer.

Secretary of the Navy Long Talks on Civil Service.

SYMPATHY FOR CONGRESSMEN.

Doesn't Believe the Great Body of the People Desires to Return to the Old System—Reasons For His Faith In the Law—Senate and House Proceedings. Other Washington News.

WASHINGTON, Dec. 10.—Secretary of the Navy Long in an interview yesterday expressed the hope that the present civil service system will not be impaired. He said he had entire sympathy with the congressmen who are brought directly in contact with applicants for official position, but believed that the president is right and should be sustained. He was of opinion that the great body of people have no desire to go back to the old system—certainly not if their attention is called to the merits of the case. He said:

"1. The government gets better service. The civil service examinations are much better than represented, but even at their worst, they result in furnishing most competent clerks who, instead of looking to political influence for their retention in office, know that that depends on their merit and good work. The power of removal which hangs over them all the time, and which should never be impaired, and which the heads of departments are constantly invoking in case of inefficiency, keeps them up to the mark.

"2. The congressmen themselves, as well as the heads of departments, are relieved from undue taking half their time. Under the old system, where they pleased one, they made enemies of 10. More and more, as the new system becomes settled, will this relief increase.

"3. The applicant for office is put on a true democratic and American footing. The old system was absolutely undemocratic and un-American. If there is a democratic or un-American principle, it is that every man shall have a chance and win according to his merit. The secretary added, "A strong appeal to smash the civil service is made to congress by those who are out, because they regard it as the one obstacle to their getting in. But if we smashed and changes made, the number of the unprovided for would still be 10 or more to one, just as at present, and the disappointment would be so widespread that the dissatisfaction with members of congress for changing the law for the particular benefit of only a few, would be greater, he added, than it is now for letting it stand for the general benefit of all."

FIFTY-FIFTH CONGRESS.

Relief For Klondikers and Pension Appropriation Bill Considered.

WASHINGTON, Dec. 10.—The senate did a considerable amount of business yesterday although no very important measures were considered or passed and there was very little debate. An attempt was made by Senator McBride to secure an appropriation for the relief of the Klondike miners but the net result was a resolution calling on the secretary of war for all information he had on that subject. An hour was devoted to the consideration of private pension bills and 45 were passed. The resolution of the Pacific railroad committee asking information regarding the sale of the Kansas Pacific was passed. Some work was laid out for next week, Senator Carter securing the right-of-way Monday and Tuesday for his census bill and Senator Lodge had the immigration bill made the unfinished business during the week.

House. The house entered upon the consideration of the pension appropriation bill. The debate promises to continue for

HIGHEST IN SIX YEARS

Wheat in the Chicago Market on the Bound.

THE SHORTS WERE ALARMED.

December Lead in the Upward Movement Reaching \$1.00 With January a Good Second—May Also Made an Advance—How It Affected the New York Market.

CHICAGO, Dec. 10.—Not since August, 1891, has any month's delivery of wheat sold as high as December did yesterday. It rose from \$1.01½ at the opening to \$1.09, but in most irregular fashion. It had many a sudden backward slide, but in the end it rested at \$1.07, or the net considerable improvement of 6½ cents for the day. January was a good second, closing at 94½ cents, a gain of 3 cents. May was less demonstrative in its bullishness. Its advance was 1½ cents a bushel.

Wheat was very nervous at the start. Shorts were evidently alarmed by the announcement that the bull clique had made arrangements to ship by rail all the wheat delivered them on December contracts and had also made advantageous storage contracts in the east. The consequence was, there was a host of buying orders for December at the opening, mostly of moderate lots, it is true, but they had the same effect on the already strained market as if they were for millions. There was no wheat for sale. December's opening ranged all the way from \$1.01½ to \$1.04, and even at the top there was scarcely a bushel to be had. This precipitated a perfect scramble among the shorts, not in December alone, but in January and May also. Before any wheat came out \$1.05 was offered for December. Then came a lull which lasted for an hour. Brokers operating for the bull clique attempted to stem the tide, but probably from 300,000 to 250,000 bushels were taken before a reaction occurred.

December declined to \$1.03½, but soon rose to \$1.05. Then came the storm. Within five minutes and amid a whirl of excitement December was bid up to \$1.08. It reacted with a jerk to \$1.06½, then up again without a stop to \$1.09, the highest point bid for wheat in this market in six years. Probably as much wheat was sold on this advance as on the earlier one. After that the market was quiet. January shorts in the meantime had not been idle. That month opened strong at from 93 to 94 cents and it sold as high as 97 cents during the excitement, an advance of 5½ cents. It was figured that the influences controlling December also applied to January and the shorts got under cover as quickly as they could. May was also very strong though it did not have the same panicky appearance of the other options.

How It Affected New York. NEW YORK, Dec. 10.—The sensational advance of December wheat in Chicago yesterday from \$1.00½ to \$1.09 was reflected locally by a net improvement of 1½ to 1½ cents a bushel. Speculation, while active at times, did not approach the excitement reported in the west, as traders here were pretty well evened up and too shrewd in the present unsettled state of the market's affairs to branch out into fresh deals. Accordingly only a scalping business was accomplished save for a little for the early in the day. December closed 98½ cents from 98 to 98½ cents and closed 98½ cents, while May closed 94½ cents after sales at 93½ to 95 cents.

NOT OFTEN THE CASE.

Man Gets Out of Writ of Habeas Corpus For His Mother-in-Law.

EATON, O., Dec. 10.—Two years ago Mrs. Elizabeth Kepple left her home near Greenfield, Ind., after securing \$5,000 alimony from her husband, and her whereabouts were unknown until a few days ago. Last February she arrived here and bought a small farm west of town. Yesterday her son-in-law arrived here from Indianapolis and went to the farm, but could not get to see her. He returned and got a writ of habeas corpus, and the sheriff brought her into court. Upon examination she was dismissed. Quite an air of mystery surrounds the affair.

MODERN WOODMEN.

Will Name Them After Indian Tribes.

WASHINGTON, Dec. 10.—Secretary Gage will hereafter give all revenue cutters the name of some Indian tribe instead of some senator or representative as heretofore. The cutter just launched at Cleveland has been named the Algonquin.

FORGERIES AND DEFALCATIONS.

Evidences of Alexander Wilhelm's Crookedness Increasing.

SOUTH BEND, Ind., Dec. 10.—The amount of the defalcations and forgeries of Alexander Wilhelm, the missing attorney, continue to increase, and now approximate \$12,000. The last forged instrument to appear is a note for \$600. Five widows and their orphaned children are among Wilhelm's victims, one of the chief sufferers being his sister-in-law. He is now thought to be in Denver.

Indiana University Foundation Day. BLOOMINGTON, Ind., Dec. 10.—The Indiana University faculty has begun making arrangements for the celebration of Foundation day, which is Jan. 20. Governor Mount has promised to be here and preside.

Thomas Bosworth of Portland, Ind., the attorney who sued Flora Evans for \$1,700 for securing a divorce verdict from the Lake Erie and Western railroad, was awarded judgment for the amount.

A DEGENERATE SON.

His Father Is Endeavoring to Land Him in the Penitentiary.

SOMERSET, Ky., Dec. 10.—Thompson Ward, of near London, came here in search of his son Frank yesterday, whom he charges with stealing a horse from him a couple of days ago. Mr. Ward traced the young man to this place and, learning that he had inquired the way to Monticello, immediately started after him. The father says he will prosecute the son to the full extent of the law. His explanation of his hatred of his first born is that the boy has been a criminal since he was 16 years old. He is now 24. Three months ago, after a long absence, Frank returned home, but left the same night, inducing a brother several years younger to visit a Swiss settlement with him. He made the boy drunk on wine and then compelled him to help rob the man who sold them the wine. Frank made his escape, but his brother, who was too drunk to run, was captured and sent to the penitentiary. The father hopes to capture Frank and have him sent to prison. Then he will lay all the facts before the governor and ask a pardon for his young son. Mr. Ward is a highly respected farmer.

Justice and Martin Bound Over.

CATLETTSBURG, Ky., Dec. 10.—Judge Haley has held David Justice and Charles Martin to the grand jury for the murder of Colonel Lazarus Vinson, which occurred two years ago.

No woman has the right to be a helpless, sick, nervous, fretful burden to her husband. If she is it is due to her own ignorance or neglect. If she will take proper care of herself and look after the health of the delicate organs that are the most important parts of her physical make-up, she will soon be a healthy, amiable, helpful, instead of a burden to the partner of her joys and sorrows. No woman who suffers from weakness and disease of the distinctly womanly organism can be a good, helpful wife to an ambitious man. It is easy to keep these organs healthy and vigorous. The most wonderful medicine for women is Dr. Pierce's Favorite Prescription. It acts directly on the organs that make her a woman. It cures all weakness and disease. It allays inflammation, soothes pain, and permits the tortured nerves to resume their natural condition. It stops all weakening drains and the woman who has hitherto been nervous, weak and fretful becomes robust, helpful and happy. Thousands of happy women who were once pain-tortured and miserable, testify to its virtues. All good druggists sell it.

"I write you these few lines to let you know the good your 'Favorite Prescription' did my wife," writes Dennis H. Connelly, Esq., of Clear Water, Wright Co., Minn. "Previous to motherhood she was very sick. She could not do her own work until she took two bottles of 'Favorite Prescription.' She took her Doctor's medicine but it did her no good. Your medicine is the best my wife ever had."

Have you a good reliable medical book in the house? There ought to be one in every family in the world. Of all the medical books published there is not one so comprehensive and reliable as Dr. Pierce's Common Sense Medical Adviser. In all its 1,008 pages there is not one sentence that may not be readily understood. No physician in the world has been a greater benefactor than Dr. Pierce. The best he knows is in this book. It is illustrated with over 300 plates and drawings. It talks about hundreds of ailments and tells you how to cure them. You may have this book for the cost of mailing it. If you want the book in paper covers send 21 one-cent stamps, to cover the cost of mailing only. For cloth cover send 31 stamps. World's Dispensary Medical Association, Buffalo, N. Y.

HUNTING HOLDEMAN

Elkhart County's Ex-Treasurer Missing—His Shortage.

A YOUNG GIRL DISAPPEARS.

Illegal Fishing Property Seized—Indiana University Foundation Day—Evidence of Attorney Wilhelm's Crookedness Increasing—Enforcing the Compulsory Education Law—Brakeman Injured.

GOSHEN, Ind., Dec. 10.—Expert Earnest, employed by the county commissioners to examine the books of ex-Treasurer Holdeman, has asked that Mr. Holdeman be requested to appear and go over the books with him and explain, if possible, their condition. Mr. Holdeman left Goshen two weeks ago and his whereabouts are unknown. The American Surety company, which indemnifies his local bondsmen to the amount of \$30,000, has issued circular letters, with a halftone cut and minute description of Holdeman, which have been sent out to every city in the country. The amount of the shortage has not at this time been made public, but it is understood will reach \$30,000.

PECULIAR CASE.

Three Men Mad Over One Woman and a Fourth Died.

HARTFORD CITY, Ind., Dec. 10.—Abraham Townsend, a bachelor, 45 years old, has been taken to the insane asylum at Richmond. He had never shown any signs of insanity until four weeks ago, when he met an old sweetheart. He visited the woman at Marion several times, and after his last visit his mind began to wander. He imagined the woman was seeking to kill him. It is a peculiar feature of the affair that the woman in the case has had three husbands, two of whom went crazy, the third dying in a manner which, it is alleged, aroused much suspicion at the time.

ARMORPLATE FACTORY.

Anderson, Ind., Hears From Secretary of the Navy Long.

ANDERSON, Ind., Dec. 10.—The Commercial club has received notice from Secretary Long of the navy, that this city is looked upon as one of the favorable sites under consideration for the establishment of the proposed government armor plant, and it is suggested that the city immediately file its bid for securing the same. Her mother is prostrated with grief, while her father has been driving day and night without sleep in search of her.

Sued the Bondsmen.

CRAWFORDSVILLE, Ind., Dec. 10.—Attorney General Ketcham has entered suit against the bondsmen of ex-Mayor Fred C. Bandel, who recently died in office. Mr. Bandel's estate having proved insolvent.

Illegal Fishing Property Seized.

COLUMBIA CITY, Ind., Dec. 10.—The fish law has been violated outrageously in the northern parts of this county. J. S. Patty, fish commissioner, learning of the depredation, searched the houses of suspected residents in the vicinity and brought to light 4,000 feet of nets. One prominent young farmer has been arrested and a number of others will follow.

Diphtheria and Typhoid.

SAGASTA'S SENTIMENTS.

He Makes a Speech Regarding Autonomy That Surprised the Carlists.

MADRID, Dec. 10.—The Carlists organs throughout Spain are making capital out of a pronunciamento delivered by Senor Sagasta against the autonomy scheme. The Carlists minority in the cortes having issued a protest in which it drew a clear distinction between political and administrative autonomy, Senor Sagasta unexpectedly echoed the sentiments of the protest in a speech declaring that the nation was "animated by the feeling first expressed by the Carlists minority."

He affirmed that the country had not poured its blood and treasure into Cuba as a vain sacrifice, but in order to retain the colonies as an integral portion of her dominion and that the government's action in granting political autonomy to the Cubans "was in opposition to the feeling of the country and to the solidarity of the nation."

The Carlists hail this, coupled with General Weyler's attitude, as a sign that even the Liberals regard the government of the regency as doomed and are already preparing to leave a sinking ship. The Carlists organs daily attack the regency and refer to the Duke of Madrid (Don Carlos) openly as El Rey. It may be noted that no steps are taken against these journals.

SECRETARY MISSING.

W. D. Toll Alleged to Be Short Many Thousands In His Accounts.

ST. LOUIS, Dec. 10.—One week ago W. D. Toll, secretary of the Belleville Investment Loan association left home saying he was going to Madison, Ill., to transact some business. Since then nothing has been heard of him. An investigation of his accounts resulted in the discovery of four irregular entries and the shortage will reach into the thousands. The directors say the exact sum is not yet known. Toll left a wife and two children, who are frantic over his disappearance. His wife maintains he has been murdered.

Death of George Holzboog, sr.

George Holzboog, sr., died at his home
in Jeffersonville Thursday morning, the
result of a stroke of apoplexy. He was
an own cousin to Mrs. Louis Schneck
of this city. Senator Schneck and the
deceased were intimate friends since
their boyhood days in Germany. Mr.
Holzboog was born in Wurtemberg, Ger-
many, seventy-five years ago, and had
resided in Jeffersonville since 1852. He
established a carriage manufactory
there which has done and is yet
doing, under the management of his
sons, a large business. He retired from
active business six years ago, having
accumulated considerable wealth.
Senator and Mrs. Schneck will go
down to Jeffersonville tomorrow morn-
ing to attend the funeral services.

An Enjoyable Time.

Fifty friends met last evening at the
home of Cudwith Able, of Jonesville,

RANDOM REMARKS.

A Seymour Ex-Editor Tells Some Stories of His Western Trip.

SEASON, Ill., December 9.—Passing over the different sections of the country—since August 15th the writer has been in and over a considerable portion of five states—he who "has eyes to see and ears to hear" cannot fail to notice, to his satisfaction, the evidence of business improvement that present themselves at every turn, or to be encouraged by the expressions of confidence in the great country, its condition and prospects, that come to him on every breeze.

STILL "SIXTEEN TO ONE."

And, not only in business affairs in general, but in politics in particular, is the change in the condition that confronted us a twelve-month ago apparent and notable. Then, everybody was talking for or against "free silver." Now, sixteen men are saying nothing to one who is doing the talking—and, without exception, the one who talks is a politician! Is the "issue" dead as an Egyptian mummy? That we are not going to discuss. Our duty is to narrate facts as we find them; inference and conclusions are the privilege of the intelligent readers of the REPUBLICAN—and we leave that to them.

WHEN TO LAUGH.

But business talk and political discussion isn't all that one hears while riding, with open ears, "on the rail." An example: Seated in a comfortable coach on the incomparable "Big Four" route, not many days ago, the writer watched the progress of a game of "cinch" and gave heed to the observations of the "cinchers"—each a crack-jack in his way.

It takes four to play that game—as you know, we presume—and each represented a different locality in the Hoosier state. Said the first:

"I'll tell you what, Bedford, my town, the most up-to-date place on the Indiana Southern railway, is solid as a rock when you come to rock quarries!"

"Oh, yes; that's gritty enough," broke in the second. "But, when it comes to big factories, Columbus tans the most hides, and"

"Hang it!" ejaculated the third, "did you ever Seymour? My city has twenty-one factories, brick streets—and of the Court House we are just as sure as we are certain that Jack Shiel—you all know him—likes a joke—at some other fellow's expense!"

All this while the fourth was silent. But, realizing that three pairs of inquiring eyes were trying to burn their way into his thoughts, he looked up with a bang-dog expression, eyed the others for a moment, and exclaimed:

"Well, I'm from Brownstown. Now laugh, you fools!"

THE NEW AND OLD.

Through western Illinois, over Iowa, up toward the Minnesota border, the Central Railway—and you never saw a better road—whirls you along over a region great in natural resources but greater still in its development. "The result of inventions?" Yes, this is an era of great discoveries! But, there are some that are not new.

Seated around an air-tight stove in a village store, a few nights since, a number of "Hawkeyes" were discussing a "new" product—"noncombustible wood." New? How ignorant some people are! That's just the kind that has been "taken on subscription" [at Seymour, Ind., for the past eighteen years by JOHN AULD FORSYTHE.

Two Pointed Questions Answered.

What is the use of making making a better article than your competitor if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.

How to Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach be disordered you have a dyspeptic look; if your kidneys be affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good alterative and tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at W. F. Peter's drug store. 50 cents per bottle.

Eastern capitalists have started a large factory at Owensboro, Ky., whose building covers two squares. Their industry is a new one and the material used is cornstalks. One hundred men are employed and the capacity of works is 300,000 tons of stalks per year. The products are various, one of the principle being cellulose for lining batte-fish. The company has a contract for four tons a week of material to be used in the manufacture of artificial silk, and another with one of the leading celluloid firm for large quantities of material, which will render the manufacture of that compound much less expensive. The concern will prepare for the manufacture of paper from stalks, experiments having demonstrated that it can be procured much cheaper than from wood.

Catarrh Cannot be Cured With LOCAL APPLICATIONS, as they cannot reach the seat of disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

MRS. LUETGERT ALIVE.

Editor John H. Schofield of St. Louis Says She Is In Boston.

BOSTON, Dec. 10.—The Globe today says: "Mrs. Luetgert, the supposed victim of the sausage manufacturer murder, so-called, in Chicago, is alive and well."

"Mrs. Luetgert was seen in this city during the month of July, acknowledged her identity, besides giving more or less explanation relative to the reasons which caused her to leave her husband, who is again to be tried for his life."

Such was the startling declaration made by Editor John H. Schofield of St. Louis to a Globe man.

Mr. Schofield supplemented his statement further with the positive assurance that Mrs. Luetgert was at the house, 7 Bullfinch place, for a period of three or four days during the middle of July last. He said he based his assurance upon the fact that Mrs. Luetgert, while in Boston, acknowledged her full identity, with the assertion that she left her husband, the Chicago sausage-maker, because of his actions with other women, as well as for reasons which she thought would help him in his financial embarrassment in business. He further asserted that he believed that Mrs. Luetgert was still in Boston and that she would yet be found.

Luetgert Jury.

CHICAGO, Dec. 10.—Four new jurors were secured in the Luetgert case yesterday. Juror Frank Hoffman was challenged by the defense and dismissed. He had said before being summoned to court that Luetgert was guilty and should be hanged. He tried to tell this when he was accepted, but the lawyers would not give him a chance to talk. The jury now lacks but one man.

GHASTLY FIND.

Human Foot Discovered on the Trucks of a Chicago Sleeper.

CHICAGO, Dec. 10.—Evidence of a startling nature which indicates that a murder has been committed somewhere between Chicago and Denver on the Chicago and Alton railroad was found last evening on the top of the front trucks of the Pullman sleeping car, after its arrival in Chicago. It was a human foot, apparently that of a man and a long slender spike penetrated the large toe. The foot, which had been torn off above the ankle, was bare and mutilated. Ligaments which had been torn from the upper portion of the limb and remained attached to the foot in dismemberment, were twisted around the bloodstained trucks of the sleeper. The police believe that a man had been tied to the railroad track, his feet spiked to the ties and that he had been left to meet certain death under the train.

INHUMAN FIEND.

Fatally Wounds One Man and Sets Fire to a Boy's Clothing.

PHILADELPHIA, Dec. 10.—Antonio Tucci, an Italian, shot and probably fatally wounded G. Tompione because of the rejection of his affections by Tompione's 19-year-old daughter Theresa. He followed this up by setting fire to the clothing of Tompione's little son Michael, and when an attempt was made to arrest him he successfully held a squad of policemen and firemen at bay until he had twice fired his revolver at them and slightly wounded Policeman Simpson and a citizen named Sacharino. Finally driven into a corner he set fire to his room and, until severely handcuffed, defended himself with a large knife.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the REPUBLICAN and send your address to Kilmer & Co., Binghamton, N. Y. Try the predictors of this paper, the eminence of this offer.
